特殊加热套

加热套适合复杂的应用类型。
加热套的结构需要和你的应用相匹配，因此工程师在不同的加热系统方面的技术知识就尤其重要。

Special heating jackets

Our heating jackets are used in thermal processes and are suitable for complex forms and applications.

This heating jackets was construct and manufacture perfect fit to your application. Therefore the know-how of our engineers in the technical interpretation of the different heating systems is of great importance.

MIL-IJ-450 绝缘套

我们提供高质量的加热套，同时也提供不带加热元件的隔热套，以保护加热部分的热损失。隔热套也像加热套一样容易跟设备匹配安装。

Insulation jackets series MIL-IJ-450

We deliver our high-quality heating jackets also without heating elements as insulation jackets to protect heated parts for warmth losses.

The insulated jackets are also with perfect fit than our heating jackets and easy to mount.
