## 具有防潮功能电加热脚垫 Heating foot pad with moisture-proof function

### 产品描述:

本产品适用于室内及室外，环境温度-30至20度内。  
产品采用防锈铝制外套，并特别进行了隔热及防滑处理。  
产品连接电源的插头上集成了温度调节器，可根据需要对使用温度自行调节。  
产品内部安装了温度监控器，在温度过高时进行自动断电保护。

### Description:

Mainly used for temperature measurement in rooms and outdoors, for temperatures from -30 to +20 °C

The product adopts rust-proof aluminum jacket, and is specially insulated and non-slip treated.

A temperature regulator is integrated on the plug of the product to connect to the power supply, and the operating temperature can be adjusted as required.

A temperature monitor is installed inside the product to automatically power off protection when the temperature is too high.

### 产品特性:

- 坚固耐用，具备防潮功能
- 防滑特性
- 可自行调节温度
- 高温自动保护
- 在德国畅销25年

### Features:

- Rugged and moisture-resistant
- Anti-slip properties
- Adjustable temperature
- High temperature automatic protection
- Bestseller in Germany for 25 years

### 应用领域:

广泛应用于办公室、接待处、收银处、仓库、车间工位、室外市场等等可以进行脚部加热的区域。

### Applications:

It is widely used in offices, reception desks, cash registers, warehouses, workshops, outdoor markets, and areas where feet can be heated.

## 技术参数

### Technical data

### MIL-FHP

电压	nominal voltage	230V AC
功率	nominal power	180W 或 320W
尺寸	size	640x480mm 或 980x640mm
防护等级	protection type	脚垫 IPX7, 电源插头 IPX0
环境温度	temperature	-30C 至 +20C
电源插头	power plug	电源线1.5米长, 集成温度调节器

## 供应范围

### Order data

型号 type	尺寸 (mm) dF	功率 (W) power	10小时耗电量 power consumption	对应订货号 order no.
MIL-FHP22	640x480	180	最大 1,8KW	53000022
MIL-FHP23	980x640	320	最大 3,2KW	53000023
